IDFC Premier Equity Fund- Plan A

INVESTMENT OBJECTIVE

The Scheme shall seek to generate long-term capital growth from an actively managed portfolio of predominantly equity and equity related instruments by acquiring small and medium size businesses with good long term potential, which are available at cheap valuations keeping in view medium to long term trends in the business environment.

INVESTMENT RATIONALE

- The Fund strives to invest in companies which are potential leaders, at an early stage in their life cycle, available at attractive valuations.
- Fund thus adopts "bottoms Up" approach to investing;
- The Fund also attempts to identify companies which can undergo a transformational change in their business prospects owing to changes in the business environment with regards to new business opportunities, technologies and trends.
- Portfolio allocation ranges from 1% to 5.5% signifying well diversified approach.
- Consistent outperformance over the Benchmark index i.e. BSE 500 over the past 3 years has made the fund top ranked mid-cap and small cap fund as per 'BW-Value Research' Study.

RECOMMENDATION

- Investment objective, being exposure to small and medium sized businesses is suitable to investors with greater risk appetite.
- The fund may run a risk of underperformance in the short run because of the long term nature of the investment style. Investment horizon, thus, should be for at least 3 years.
- The Fund House is overweight on FMCG and Services sector (combined weightage of 45.19%) in the portfolio, in view of consumption led GDP growth witnessed in India.
